

Announcement of the results of the 1st Call for Proposals of the KAPPA funding programme for applied research, experimental development and innovation

TA CR does not anticipate concluding a Project Contract with the applicants of the project proposals listed below due to the lack of available funding.

The project proposals listed in the tables below were recommended for funding, however, given the limited amount of funding allocated for this Call for Proposals, the Project Contract will not be concluded with the applicants of these project proposals. These project proposals form a reserve list.
